

BOSPHORUS

MARINE ELECTRONICS & SHIP SUPPLY

SERVICE
TESTING
SUPPLY

One team for all of your vessel's electronics. We survey, test, repair and supply bridge, radio and satellite equipment on board, wherever your vessel calls.

WHAT WE DO

GMDSS & Radio Survey

Annual radio surveys for SEC / PSSC, MF/HF, VHF DSC, Inmarsat-C and EPIRB tests with shore-based maintenance.

VDR & S-VDR APT

Annual performance tests, data download and capsule checks, with APT certificates accepted by class and flag.

Navigation equipment

Radar / ARPA, ECDIS, AIS, gyro and autopilot: installation, troubleshooting, repair and software updates.

Satellite communications

VSAT, Fleet Broadband and Iridium installation and commissioning, antennas, cabling and SSAS tests.

Newbuild & retrofit

Bridge electronics for newbuilds and retrofits: cable plans, installation, commissioning and trials.

Spare parts & supply

Magnetrons, displays, antennas and batteries for EPIRB, SART, VDR and GMDSS, delivered on board.
